MEASURING TOGETHER: PARTICIPATORY MONITORING AND EVALUATION

Duration: 27 hours over 5 days

Fee: 1500 USD

Who is it for?

- Monitoring and Evaluation practitioners of all levels
- Project and Program Managers

Course Description

Involving all stakeholders in the Monitoring and Evaluation process improves project effectiveness, makes our M&E more reliable and increases community participation.

This training introduces participants to a variety of approaches in Monitoring and Evaluation. They develop their ability to facilitate PM&E, to involve different groups, to overcome barriers to participation, and acquire the skills to apply a range of participatory tools in M&E.

The main areas covered include:

- The What, Why and How of Participation (Philosophy of Participation)
- Types of Monitoring and Evaluation
- Collection and Analysis of Information
- Tools for PM&E

Now I am clear about the various functions of M&E and the training has made me confident in doing M&E independently

For dates and locations see
www.eldtraining.com

Course Schedule

The first two days explore some key aspects of PM&E, while the rest of the course presents and practices tools for participatory data gathering and analysis.

Day One
